

FIXZ PRO

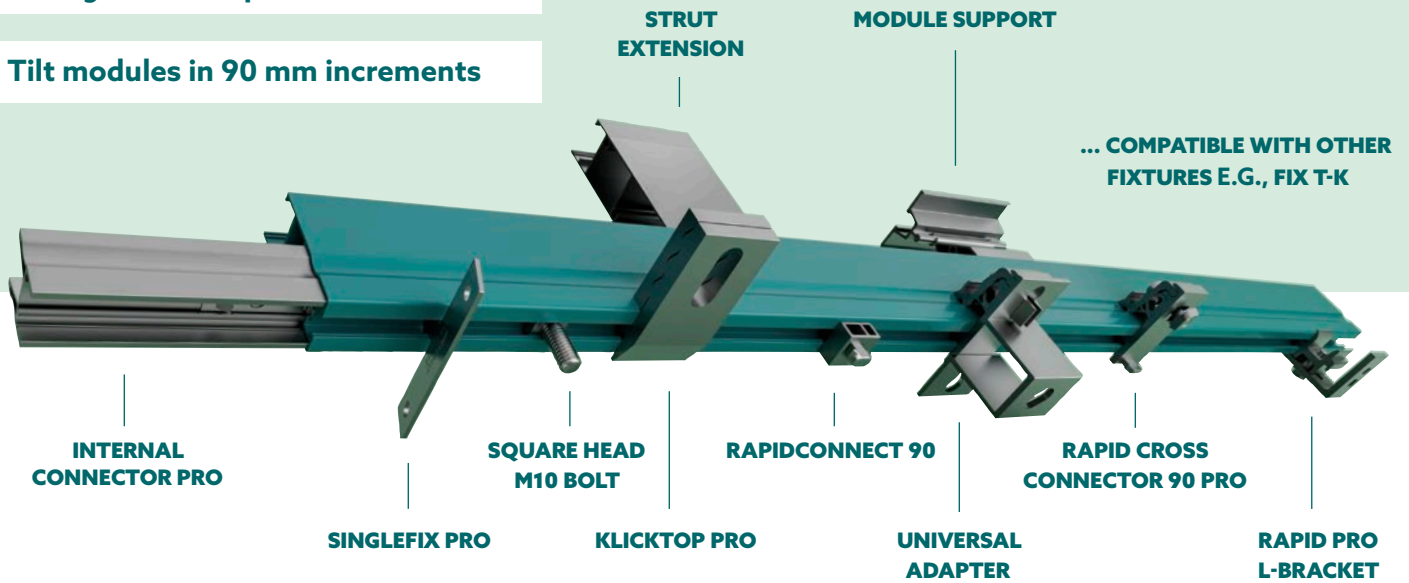

PRODUCT SHEET

Suitable for pitched roofs, flat roofs, and barrel roofs

Ideal for a variety of roof surfaces like corrugated or trapezoidal sheet metal

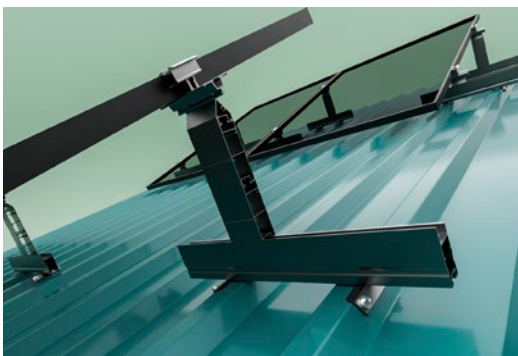

Tilt modules in 90 mm increments

THE VERSATILE AND COST-EFFECTIVE RAIL

Flush mounted installations on low-pitch trapezoidal roofs may be less than ideal for self-cleaning and maximum yield. At the same time using conventional struts may not be possible or uneconomical due to higher loads.

In these cases FixZ Pro offers flexibility, with a universal and cost-effective solution that optimises load transfer to the roof while providing optional tilt angles as desired.

FIX Z PRO

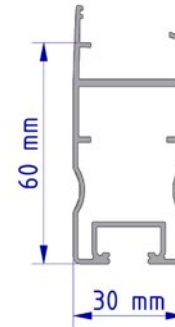

TECHNICAL DETAILS

Scope of application	<p>Varied roof surfaces:</p> <ul style="list-style-type: none"> • Trapezoidal sheet metal using SingleFix Pro • Corrugated fibre cement, trapezoidal sheet metal, and slate shingles using KlickTop Pro • Bitumen roofing using Fix T-K Pro • Sheet metal seam roof using sheet metal seam clamps and Rapid Cross Connector 90 Pro or RapidConnect 90 <p>... and many other applications</p>
Material	Aluminum
Planning aid	Configuration and design report via the Schletter Configurator
Design	<p>Structural calculation based on the recognized rules of technology. Structural verification of the mounting system is based on the relevant Eurocodes in conjunction with general building inspectorate approvals.
